ANNEXURE.

CONDITIONS FOR AIDED CATTLE BREEDING IN AMRIT MAHAL KAVALS.

(1) One hundred cows between the ages of 4 and 13 (about ten in each year brand) with one bull shall be purchased by the ex-servegar at the prevailing market rates which shall not exceed the following scale :—

Females under	4,	5,	6,	7,	8,	9,	10,	11,	12,	13, years.
	25,	25,	33,	40,	37,	33,	30,	26,	23,	18, rupees.

(2) Such of the calves as are under 9 months of age at the time of purchase of cows and one breeding bull will be given free of cost.

(3) The breeder shall immediately pay 25 per cent of the total value of the stock sold to him and execute an agreement mortgaging landed property for the balance amount.

(4) The balance amount shall be paid within a period of six years in equal annual instalments. Interest at 6 per cent shall be charged on all overdue amounts till date of payment.

(5) The breeder will acquire proprietary right over the stock when the full value of the same is paid up.

(6) The breeder will be given a long term lease (ten years) of grazing ground up to a limit of 2,000 acres in two kavals with permission to raise crops (except purely commercial crops such as cotton, etc.,) suitable for fodder purposes.

(7) The breeder shall pay an annual lease amount of Rs. 200 for the whole extent.

(8) If any area is cultivated in any year with other than purely fodder crops, he shall pay assessment to the Revenue Department, on the extent so cultivated at the rates of assessment prevailing in the locality.

(9) The extent leased out shall be subject to inspection by officers of the Forest, Revenue and Agricultural Departments. Exploitation of forest produce and preservation of sandal growth, if any, shall remain under the control of the Forest Department. No license for fuel except to the lessees will be issued by the Forest Department in the area leased out to the breeder.

(10) The breeder shall allow constant supervision of the cattle and the grazing ground by the Live Stock Expert.

(11) The breeder shall always maintain a minimum number of 80 cows retaining the best animals.

(12) He shall retain only such bulls as are approved by the Live Stock Expert to sire the herd.

(13) He shall not eliminate any stock without permission.

(14) He shall maintain herd registers properly, brand all the calves born in the herd, and submit prompt reports of births and deaths as they occur.

(15) He shall allow all animals to be protected against contagious diseases by inoculations whenever necessary.

(16) He shall clear at least 50 acres of lantana or other thorny shrubs each year in the kaval area leased out.

(17) The following concessions will be granted to the breeder :—

(*a*) To keep with the herd 50 cows of his own, but these must be approved as to quality by the Department.

(*b*) To utilise branches of unreserved trees in the areas leased out for the purpose of constructing stockades and sheds.

(*c*) The breeder can graze his cattle in the State areas on the system of lumpsum grazing fees just as in the case of ordinary villagers.

If the breeder fails to fulfil the above conditions, the land leased out to him shall be liable to be immediately resumed. Any arrears due to Government shall be recoverable as if they were arrears of land revenue under the provisions of the Land Revenue Regulation and the rules thereunder.
